DECLARATION BY ICELAND ON

SANITARY AND PHYTOSANITARY MEASURES

In product areas where the legislation relating to sanitary and phytosanitary matters is harmonized between Iceland and the EC, there are no additional requirements on products destined for the Icelandic market. However the EEA-Agreement contains a safety clause, according to which Iceland may adopt different measures based on its own risk assessment.

DECLARATION BY SACU ON

SANITARY AND PHYTOSANITARY MEASURES]

In products areas where the legislation relating to sanitary and phytosanitary matters is formally recognized to be equivalent between Iceland and the EC, SACU Member States endeavour to take into account such equivalency when evaluating a request for import approval in terms of the relevant domestic sanitary and phytosanitary legislation. This undertaking, however, should not be construed as granting automatic approval when considering such an application and where such equivalency exists. It needs to be considered on a case-by-case basis and the approach taken might differ among SACU Member States, based on the relevant domestic regulatory environment.
